SAI NAGENDRA YAKKALADEVARA

UI DEVELOPER

+91 9398263414 | nagendrayakkaladevara@gmail.com | Hyderabad, India

LinkedIn | Portfolio | Github | Twitter | Blog

PROFILE SUMMARY

Experienced UI Developer with 3 years of expertise in building scalable, user-centric applications. Skilled in both frontend and backend development, with a strong foundation in React, Node.js, and MongoDB. Proven ability to lead cross-functional teams and deliver high-quality software solutions that streamline workflows and enhance productivity. Passionate about developing efficient, scalable, and intuitive applications that drive business success.

SKILLS

- **Frontend Technologies:**
  - HTML, CSS, JavaScript, TypeScript
  - ReactJS, NextJS, SPFx, Angular
  - Tailwind CSS, Shadcn, Material UI, Bootstrap
- **Backend Technologies:**
  - NodeJS, ExpressJS
  - WebSocket, Serverless Backend, REST APIs
- **Databases:**
  - MongoDB
- **Build & Deployment:**
  - Building NPM Packages
  - AWS (Basics)
- **Version Control:**
  - Git, SVN

WORK EXPERIENCE

Software Developer | Prodapt Solutions | Hyderabad *MAR 2022 - PRESENT*

- Designed and developed **four major products from the ground up**, driving significant efficiency improvements.
- **Prodapt University** – Built a comprehensive employee training platform, reducing manual effort by 74% and boosting productivity by 65%.
  - Tech Stack: React, TypeScript, Node.js, Express.js, MongoDB.
- **CII** – Developed an idea management platform with multi-level approval and validation, enabling seamless collaboration among employees.
  - Tech Stack: React, TypeScript, Node.js, Express.js, MongoDB, Tailwind CSS.
- **306090** – Automated the employee onboarding process, eliminating 100% of manual effort through task assignments and email triggers.
  - Tech Stack: React, TypeScript, Node.js, Express.js, MongoDB, WebSocket.
- **eDocket** – Created a director-level dashboard to monitor employee data, improving efficiency by 80% with interactive charts and maps.
  - Tech Stack: React, TypeScript, Node.js, Express.js, MongoDB.

PERSONAL PROJECTS

GitHub Wrapped | Live Demo

- A sleek web app that provides personalized GitHub activity insights for the year. Users can track **total commits, pull requests, issues resolved, languages used, and key milestones** like stars and forks.
- **Tech Stack:** React, TypeScript, Express.js, MongoDB, Tailwind CSS, ShadCN, GitHub

PreviewMessenger | Live Demo

- A **real-time chat application** built with WebSockets, allowing users to preview what their friend is typing **before** they send the message. Features include **last seen status, location sharing, and friend requests**, with a sleek UI built using Tailwind CSS and ShadCN.
- **Tech Stack:** React, TypeScript, Express.js, MongoDB, WebSockets, Tailwind CSS, ShadCN, GitHub

Crew Contacts App | Live Demo

- A streamlined **contact management tool** for crew members, featuring **voice search** for quick, hands-free access. Built with ShadCN and Tailwind CSS, it offers a modern, responsive design and **effortless contact lookup**, enhancing team communication.
- **Tech Stack:** React, TypeScript, JavaScript, Express.js, MongoDB, GitHub

ReUseReact UI | Live Demo

- A **React UI library** with **15+ ready-to-use, reusable components** designed for efficiency and flexibility. Built without extra dependencies, allowing easy customization with **Tailwind CSS**, making it ideal for developers looking to **streamline UI development**.
- **Tech Stack:** Next.js, TypeScript, Tailwind CSS, Express.js, MongoDB, GitHub

NPM Package – React Reusable Button Component | Live Demo

- A **lightweight, customizable React button component** designed to improve **code reusability** and simplify UI development. Ideal for projects requiring a consistent button design across multiple applications.
- **Tech Stack:** TypeScript, NPM, GitHub

ACHIEVEMENTS

- Recognized with the Spotlight Award (March 2024) for exceptional performance in Prodapt University project.

EDUCATION

Gayatri Vidya Parishad College of Engineering (Autonomous) *JUL 2017 - APR 2021*

- Bachelor of Technology

HOBBIES & INTERESTS

- **Building Innovative Projects** – Passionate about developing new solutions, experimenting with emerging technologies, and solving real-world challenges through code.
- **Exploring New Technologies** – Continuously expanding technical expertise to stay ahead in the industry. Currently learning AWS.
- **Tech & Global Trends** – Staying updated on current affairs, industry trends, and technological advancements through news and research.
- **Fitness & Well-being** – Maintaining a balanced lifestyle with regular gym workouts to enhance focus, discipline, and overall well-being.
